

fast_deconv::matrix
::detail::naive::naive

```
graph LR; A["fast_deconv::matrix  
::detail::naive::naive"] --> B["fast_deconv::core::  
resources::alloc_async"]
```

A diagram showing a transition from a naive matrix implementation to a core resource allocation implementation. A blue arrow points from the left box to the right box.

fast_deconv::core::
resources::alloc_async
